Profile Summary

Motivated and detail-oriented BCA graduate with strong foundational expertise in database management, SQL, and logical workflows. Experienced in building structured web applications and managing relational data, with a proven ability to troubleshoot complex system logic and optimize data accuracy. Leveraging a technical background to drive process efficiency, high-quality content management, and data-driven solutions in a fast-paced retail operations environment.

Education

The American College, Madurai **July 2022 – May 2025**
Bachelor of Computer Applications *8.5-CGP*

SPM Oxford Matrix Hr. Sec. School, Dindigul **June 2021 – May 2022**
Commerce with Computer Applications *83.6-Secured*

Skills

- Data-driven Problem Solving
- Analytical Thinking
- Debugging & Troubleshooting
- Verbal & Written Communication
- Attention to Detail
- Cross-functional Collaboration

Internship

Tata - Data Analytics Virtual Internship **Jun 2026**
Intern *Remote*

- Completed a virtual internship focused on data interpretation, business insights, and analytical problem-solving through practical case-study-based tasks.
- Analyzed data to identify trends, patterns, and actionable insights, strengthening data-driven decision-making and business analysis skills.
- Applied analytical techniques to solve business scenarios and communicate findings to support informed decision-making.

Projects

E-Commerce Catalog & Inventory Management System | *Database Analyst* **Feb 2026**

- Designed and structured a relational database using SQL to manage 1,000+ mock product listings, ensuring accurate categorization and taxonomy.
- Built an interactive Excel dashboard to track inventory metrics, identify low-stock anomalies, and streamline order processing workflows.
- Automated data cleaning processes, reducing catalog indexing errors by 15 per during simulation.

Sales Data Analysis Dashboard | — *Data Analyst* **March 2026**

- Extracted and analyzed a dataset of [e.g., 5,000+] sales transactions using SQL and MS Excel to discover purchasing trends.
- Developed data visualizations that highlighted seasonal demand shifts, presenting actionable insights for business inventory planning.

Bussines Growth | *Data Analyst — SQL* **Jun 2026**

- Performed data analysis using SQL queries to examine income, expenses, and spending patterns from transaction data.
- Created analytical reports using aggregation functions, filtering techniques, and data visualization to generate meaningful business insights.
- Strengthened practical skills in data retrieval, analysis, reporting, and data-driven decision-making.

Technical Skills

Data Analytics: SQL (Queries, Joins, Aggregations), Advanced MS Excel (Pivot Tables, VLOOKUP, XLOOKUP, Data Validation), Tableau (Basic)
Languages: Python(Basic)
Operational Competencies: Catalog Management, Process Optimization, Data Cleaning, Analytical Problem Solving
Methodologies: Agile/Scrum Foundations, Quality Assurance (QA) Basics, Root Cause Analysis

Achievements

TCS NQT – Cognitive **April 2026**

- Achieved a Cognitive Score of 55.42%, demonstrating aptitude, analytical reasoning, and problem-solving skills.

Certifications

- SQL for Data Science - Coursera
- TCS iON Career Edge - Young Professional And AI Foundation
- Excel Automation Using ChatGPT for Large Datasets – Simplilearn
- IBM Granite Data Classification Badge
- UI/UX - Novi Tech
